

The Spiritual Significance Of Music

GUARDIAN

RIKK HART

Music is a gift from God. It speaks to all of us in different ways. Music has a way of painting visual imagery to the listener. I believe God uses music as a tool to speak to people's hearts in many cases, and so music is spiritual and significant. As with many things in life, not all music is used for and to glorify God. Music can tend to guide people down certain paths for good or bad. I can't imagine a world without a spiritual significance in music. I believe music is part of the fabric in our universe created by God. Music is in us and all around us.
