

*The Spiritual Significance Of Music*

# SOUNDS OF BLACKNESS

**GARY HINES**

Music is God's perfect form of communication. Music is indeed the "*Universal Language*" in the words of the great Stevie Wonder. Music exists throughout the entire Universe and in all Creation. Astrophysicists have detected an "A" note twelve octaves below the piano, emanating from distant stars. Therefore, music is clearly a Spiritual entity. These realities drive home the fact that we are not human beings having a spiritual experience as much as we are spiritual beings having a human experience – through music!
